ACADEMICS

A MESSAGE FROM THE PRESIDENT

Dear Graduates:

I cannot believe that four years have passed since the Class of 2010 entered Pope John XXIII High School, and now it's time for each of you to step into the rest of your lives. We will miss you all very much.

When you think back to your Pope John days, remember the after-school clubs, the spirit weeks and the exciting sports seasons. Most of all, remember what you learned in each classroom, and the teachers who spent time *with* you and *for* you. Smile often when you think of the good friends you've made and the memories you've created.

You were the class that helped get Pope John selected by a local magazine as one of the top ten private-school values in Greater Boston. We are so proud of the academic, spiritual and social experience we strive to offer every one of our students.

Please make Pope John part of your future by becoming active in the school's Alumni Association and the various activities that happen here. You will always be a member of the Pope John family, and we wish you health, happiness and success in all your future endeavors.

May God bless and keep you forever in His care.

Sincerely,

Kathleen F. Donovan
President

CLUBS & ACTIVITIES

**Mr. Stephen Skerry
moderator**

"Having a new math club has been great. The students seem to have fun and we are learning to compete with some larger schools like Austin Prep and Peabody High."

Math Club π

The students who participated in the Math Club this year included Brendan Bowridge, Allison Connors, Sun-Young Lim, Cara Matarazzo, Rachel Mold, Phung Ngo, Huong Nguyen, Mark Rodriguez, Harry Singh, Cassie Sobutka, Ashley Stone, Richard Tammaro, Oanh Tran and Rachel Yao.

Chess Club

Chess matches broke out all over Pope John this year, and Mr. Balen took advantage of the enthusiasm for the game and started a Chess Club. Students got the chance to learn the game and to play a variety of opponents, including Mr. Balen. The chess club hopes to be ready next year to compete with other schools.

**Mr. Rodrigo
Balen
moderator**

"When the students play chess, they practice my theory: a good education is the key to knowledge."
